

2<sup>nd</sup> May 2024

Dear Customer,

**BISALAX - PBS Delisting - 1 June 2024**

Orion wishes to advise that BISALAX, bisacodyl 10mg/5ml enema, 25 x 5ml will be deleted from the Schedule of Pharmaceutical Benefits effective 1 June 2024.

PBS Item Code	Product Code	EAN	Product Description
1263L	1179637	6432100059338	BISALAX, bisacodyl 10mg/5ml enema, 25 x 5ml

The rising costs of labour, raw materials, packaging and freight, combined with a recent statutory price reduction, have meant the product is no longer commercially viable while listed on the Pharmaceutical Benefits Scheme (PBS).

At this point Orion Pharma will not be withdrawing the product from the Australian Register of Therapeutic Goods (ARTG) and will continue to supply based on market demand. If you would like to continue to purchase BISALAX after 1 June 2024 please contact Orion Pharma for updated pricing and trading terms.

Yours sincerely,

Gary Bird
